Index to The Oil and Gas Journal

Principal Articles Appearing in Issues During First Six Months of 1930 Classified for Ready Reference by Readers

AIR AND GAS LIFT

	Date	Page
Pence, R. H.—Pressure Factors in Oil Production	1-2	36
Pence, R. H.—Preparing Well for a Pressure Well	1-9	139
Kern, Charles E.—Jones Patent Held Invalid on Process for Gas Lift of Oil	1-16	139
Pence, R. H.—Two-Stage Separation of Oil and Gas	2-6	34
Foran, E. V.—Problems in Air and Gas Injection	4-10	83
Pence, R. H.—Methods for Controlling Gas Production in California	5-8	59

SPECIAL ARTICLES BY STATES AND AREAS

Alabama

	Date	Page
Spraragen, L.—Magnetometer Study of Alabama Area	1-2	37

Arkansas

	Date	Page
Branner, Dr. George C.—Arkansas River Valley Possibilities	3-6	99

California

	Date	Page
Knudsen, E. T.—California Storage Facilities Now Total 238,500,000 Bbls.	1-16	142
Stockman, L. P.—New Production Record in California	1-30	116
Stockman, L. P.—California Refiners on Current Basis	2-13	39
Stockman, L. P.—Santa Fe Springs Greatly Overrated	2-20	37
Morgan, Frank A.—Tideland Development in California	3-13	114
Eaton, J. E.—California May Yield Eight Billion	3-13	124
Hertel, F. W. and E. W. Edson—Mud a Problem in Ventura Avenue Field	3-20	42
Herold, Stanley C.—Problem of Drainage at Kettleman Hills	3-27	40
Brown, R. I.—Operations in Kettleman Hills Field	4-3	39
Stockman, L. P.—New Field Probably Opened at Brea	4-24	39
Stockman, L. P.—Deep Discovery in North Belridge, Calif., Pool	5-1	40
Pence, R. H.—Methods for Controlling Gas Production in California	5-8	59
Yard, W. S.—Gas Has An Active Year in California	5-8	134
Decker, E. L.—Treatment of Mud Fluid in California	6-12	32

Gulf Coast and Southwest Texas

	Date	Page
Murphy, P. C. and Sidney A. Judson—Crooked Hole Problem on Gulf Coast	3-27	106
Barton, Donald C.—Torsion Balance Survey at Esperson	4-3	38
Barton, Donald C.—Geophysical Prospecting for Petroleum on Gulf Coast	5-1	70
Barton, Donald C.—Geophysical Prospecting for Petroleum on Gulf Coast	5-8	193
Spraragen, L.—Use of Magnetometer in South Texas	5-15	42

Kansas

	Date	Page
Hiestand, T. C.—Voshell Area in McPherson County	6-5	36

Louisiana

	Date	Page
Bancroft, D. H.—Zwolle, Sabine Parish, Louisiana, Shows Reward of Persistency	1-30	57
Shearer, H. K. and E. B. Hutson—Importance of Dixie Pool, Louisiana	5-1	32
Unusual Activity in Drilling Operations in Louisiana Fields	5-1	145
Louisiana Severance Tax	5-1	168

Mississippi

	Date	Page
Spraragen, L.—Thorough Test for Jackson Anticline	5-8	56

Oklahoma

	Date	Page
Bignell, L. G. E.—Central Power Pumping at Seminole	1-2	33
Spinney, W. A.—Oklahoma City Field is One of Great Achievement and Promise	1-9	38
Bignell, L. G. E.—Operating Problems at Oklahoma City	1-30	58
Bignell, L. G. E.—Modern Methods Subdue "Wild Mary"	4-10	46
Oklahoma Field Conference Studies Permian Type Sections	4-24	50
Wierich, T. E.—Features of the Simpson Formation	4-24	112
Bignell, L. G. E.—Russian Drill Tested in Oklahoma	5-29	36
Second Well at Oklahoma City Controlled by Special Die Nipple	5-29	66

Rocky Mountains

	Date	Page
Bartram, John G.—Possibilities in the Julesburg Basin in Eastern Wyoming and Northeastern Colorado	1-23	88
Ingram, Tolbert R.—New Mexico Led Rocky Mountain Area	1-30	129
Ingram, Tolbert R.—Barren Waste Undergoing Great Change	2-6	31
Rankin, C. H.—Geologic Work in Eastern Colorado	4-24	112
Water Well in Southwestern Colorado Has Showing of Gas	6-26	106
Ingram, T. R.—Colorado Gas Commission Begins Enforcement of Conservation Law	6-26	151
Spraragen, L.—Magnetometer Results in Lea County	6-12	91
Spraragen, L.—Magnetometer Results in Lea County	6-26	34

Tennessee

	Date	Page
Bailey, Willard F.—Petroleum Possibilities in Tennessee	4-3	42

West Texas

	Date	Page
Bredberg, L. E.—Crude Situation in the Permian Basin	1-9	39
Plan Deeper Drilling in Northwest Texas	1-9	120
Bignell, L. G. E.—Penn Pool in Ector County, Texas, Rapidly Growing in Importance	4-10	178
Bignell, L. G. E.—Drilling Below 8,000 Feet at Big Lake	4-17	39
Bignell, L. G. E.—Production Problems in Winkler Field	4-24	44
Bignell, L. G. E.—Large Production in Shallow Pool North of Iraan in Pecos County	4-24	169
Lowman, S. W.—Silicious Lime Produces at Big Lake	6-5	34

ASSOCIATIONS-BUREAUS-COMMITTEES

	Date	Page
Society of Mechanical Engineers Studying Oil Industry Problems	2-13	110
California Men Form Mapping Association	2-13	164
Mockler, A. E.—Oil Questions at A.I.M.E. Meeting	2-27	38
Interesting Papers Mark Convention of Minnesota Jobbers	2-27	146
Operators in Texas in State Association	2-27	160
Welding Conference at Arlington, Texas	2-27	166
Western Refiners Meet in Shreveport	3-6	53
Alberta Geologists Meet	3-27	134
Geologists Arrive for Convention	3-20	39
Vinson, Curtis—Sidney Powers Will Head A.A.P.G.	3-27	39
Vinson, Curtis—Geophysicists May Organize Into Permanent Separate Group	3-27	39
Bignell, L. G. E.—Engineers Gather at Midland for Spring Meeting of A.P.I.	4-10	56
Bignell, L. G. E.—Open Forum Marks Midland Meeting	4-17	38
Record Attendance at Oil Burner Convention	4-17	148
Eastern Production District Conference	4-17	192
Independent Petroleum Association Holds First Annual Meeting	4-24	40
National Petroleum Association Meeting	4-24	148
Junior Club Engineers in Technical Session	4-24	162
Smiley, Thomas F.—Natural Gas Department, A.G.A. In Session	5-8	55
Kern, Charles E.—Present Petroleum Activities of Bureau of Mines Engineers	5-8	196
Conference on Gauge Standards Is Called	5-15	69
Ziegenhain, W. T.—Gasoline Meetings Largely Attended	5-22	45
Lederer, Dr. E. R.—President Lederer Reviews the Year	5-22	86
Institute Directors Approve 1930-31 Program of Research	5-22	86
Mid-Continent Scouts and Land Men Meet in Annual Convention	5-29	145
Southeastern Ohio Oil & Gas Men's Association Meeting	5-29	145
Alberta Association Meets	5-29	145
Consulting Geologists Elect	6-5	394
Bredberg, L. E.—West Texas Scouts Have Their Troubles in New Eastern Area	6-12	146

AUTOMOTIVE-AIRPLANE-UTILIZATION

	Date	Page
Auto Registrations Gain 8.8 Per Cent	1-30	56
Automobile Data Assure Large Gasoline Consumption in 1930	2-6	148
Amphibian Airplane to Survey Venezuela	2-13	74
Airplanes in 1929 Used 1,000,000 Bbls. Gasoline	2-20	162
Kern, Charles E.—Bus Traffic Growth Shown in A.A.A. Report	5-15	167
Kern, Charles E.—Oil Burning Engine Tested in Aviation	5-22	186
Caper, Jr., Julian—Increasing Use of Aerial Surveys by Geologists in Southwest	6-19	77
Automobile Production Shows A Sharp Decline	6-19	159

CARBON BLACK

	Date	Page
Record on Carbon Black	1-16	139
Carbon Black Production and Use	1-30	100
Columbian Carbon Co. Reports on Operations	4-3	94
Seeking to Increase Yield of Carbon Black	4-24	90
Carbon Black Production in 1929 Was 47 Per Cent Above That of 1928	5-1	76
Bredberg, L. E.—Carbon Black Overproduction New Threat in the Permian Basin	5-22	102
Increase Carbon Yield by Injection Into Coke	5-22	102

CONSERVATION—CO-OPERATION

	Date	Page
Smiley, Thomas F.—Lawyers to Study Conservation	1-2	35
Wilbur, Ray Lyman—Responsibility for Conservation Lies With Industry	1-9	140
Smiley, Thomas F.—Texas in Fight on Crude Price Cuts	1-23	33
Stockman, L. P.—California Conservationists Win Decision in State Supreme Court	1-23	33
Gibbs, L. Vernon—Conflicting National Oil Policies	1-23	38
Kern, Charles E.—Oil Leaders See President Hoover	1-30	53
Kettleman Operators Favor Wilbur Plan But One Holds Out	1-30	262
Kern, Charles E.—Tariff Advocates Heard in Washington	2-6	29
McIntyre, James—Independent Producers Ask Tariff	2-6	30
Wasson, Harold J.—Foreign Oil and U. S. Oil Industry	2-13	41
Mockler, A. E.—Committee on Unit Operations is Announced	2-13	50
Kern, Charles E.—Conservation Board to Continue Program for Another Year	2-13	146
Lucey, J. F.—Captain Lucey Urges Co-operation on All Phases of the Industry	2-13	160
Mockler, A. E.—Petroleum Section, A.P.I. Discusses Unit Operation	2-20	37
Jensen, Joseph—Unit Operation in California Fields	2-20	39
Williams, Neil—Refugio Crude Big Competitive Factor	2-20	41

(Continued on Next Page)

INDEX TO THE OIL AND GAS JOURNAL

CONSERVATION—CO-OPERATION (Continued)

	Date	Page
Smith, George Otis—Gas Conservation Sorely Needed in California	2-20	46
Gas Waste 42 Per Cent in California Field	2-20	94
Stockman, L. P.—Crisis Continues in California	2-27	37
Oliver, Earl and J. B. Umpleby—Unit Operation Reports Summarized	2-27	38
Willson, C. O.—Wilbur Suggests Refinery Curtailment	3-6	53
Estabrook, E. L. and H. H. Hill—Unit Operation in East and Abroad	3-6	54
Mockler, A. E.—To Reduce Venezuelan Production	3-6	54
California Curtailment Schedule	3-6	250
Mockler, A. E.—Refiners Accept Wilbur's Principle	3-13	45
Stockman, L. P.—Gasoline Weakness California Peril	3-13	45
Wilbur Selects a Committee to Report on Petroleum Economics	3-13	47
Reeser, E. B.—Reeser Urges California to Co-operate	3-13	50
Jones, Roy B.—Urge Co-operation in Annual Address	3-13	50
Stockman, L. P.—Kettleman Hills Stirs Grave Concern	3-13	130
Stockman, L. P.—California Conservation Law Upheld	3-20	37
Stockman, L. P.—California's Curtailment Nears Mark	3-20	37
Oliver, Earl, E. L. Estabrook, H. H. Hill, C. E. Beecher, L. L. Brundres and Robert R. Boyd—Report of A.I.M.E. Unitization Study	3-20	166
McIntyre, James—Conservative Policy Strengthened	3-27	35
Stockman, L. P.—Drastic Cuts in California As Rate Competition Continues	3-27	48
A.P.I. Refining Division Committee Endorses the Six-Day Program	4-3	48
Kern, Charles E.—Report on 1930 Supply and Demand	4-17	37
Heavy Cost of Too Much Gasoline	4-24	39
Reeser, E. B.—Is It Possible to Be Too Efficient?	4-24	41
Oil and Gasoline Supply Certain So Long As There Is Use for Them	4-24	160
Mockler, A. E.—Onus for Overproduction in Venezuela	5-1	143
Kern, Charles E.—U. S. Chamber of Commerce Hears Oil Men and Honors W. G. Skelly	5-1	145
Pence, R. H.—Methods for Controlling Gas Production in California	5-8	59
Mockler, A. E.—Institute Directors Commend Estimates of Economic Reports	5-8	99
Mockler, A. E.—Teagle Analyzes Industry's Progress	5-22	49
Reeser, E. B.—Two Pictures of the Oil Industry	5-29	31
Hope to Cut Bradford-Allegany Production 8,000 Bbls. Per Day	5-29	145
Federal Board Analyzes Oil Conditions	6-5	32
Enjoined from Too Rapid Production	6-12	145
Mockler, A. E.—Refiners Must Reduce Runs of Crude	6-19	38
Reeser, E. B.—Reeser Reviews Situation at Start of Final Half of 1930	6-19	38
Seek Prevention of Gas Waste and Drilling Inside Oklahoma City	6-19	57
Ingram, T. R.—Colorado Gas Commission Begins Enforcement of Conservation Law	6-26	151
Committee of Congress Would Trade Land in Elk Hills Reserve	6-26	152
Unit of Operation Plea Called Encouraging	6-26	152
New Conservation Committee	6-26	166

CORROSION

	Date	Page
Kern, Charles E.—Soil Corrosion and Proper Coatings	1-2	35
Egloff, Gustav—Corrosion of Refinery Equipment	1-2	42
Rolling Rig Method of Applying Pipe Coatings Eliminates Waste	1-2	137
Burgess, George K.—Details of Plans to Test Pipe Coatings	1-16	48
Bignell, L. G. E.—Work Done in Combating Corrosion of Oil Field Equipment in 1929	2-20	39
Mead, Briand, S. S. Shaffer and E. Camp.—Corrosion in Cracking Coil Tubes	3-6	122
Kern, Charles E.—Meeting to Discuss Plans for Studying Pipe Line Corrosion	3-13	212
Bignell, L. G. E.—Co-operative Test on Pipe Corrosion	3-20	38
Ewing, Dr. Scott—Preparation and Burial Places for Coating Test Specimens	4-10	86
Scott, Gordon N.—Study of Soil Action on Pipe Lines	4-10	112
Denison, I. A.—Soil Characteristics and Corrosion	4-10	122
Engineers and Manufacturers See Test of Interest of Pipe Line Men	4-24	161
Pipe Coatings Tests Will Start in June	4-24	174
New Central Committee in Production Division A.P.I.	4-24	180
Perkins, Harry F.—Development of Adhesives for Foiling	5-1	31
Wehrle, George—Ideal Coating for Pipe Is Foolproof	5-8	138
Oil Film in Gasholder as Corrosion Solution	5-15	87
Pipe Coating Tests Will Start in June	4-24	174
Ziegenhain, Wm. T.—Lime and Ammonia Limit Corrosion	6-5	35
Bly, E. P.—Reconditioning Lines Cost Millions	6-5	T-36
Perkins, Harry F.—Foiling as Applied to Pipe Lines	6-5	T-65
Dickey, Donald E. and H. Hayes—Procedure in Making Surveys of Soils	6-5	T-75
Finley, Dozier—Development of Pipe Coating Machines	6-5	T-119
Kern, Charles E.—Bureau of Standard's Corrosion Work	6-5	T-122-G
Browning, Edgar S.—Mechanical Application of Coating	6-5	T-143
Denison, I. A.—Inherent Characteristics of Soil Important in Studying Corrosion	6-5	T-200
Lime and Ammonia Limit Corrosion	6-5	T-333

CRACKING AND CRACKED GASOLINE

	Date	Page
Obtain Satisfactory Results in Operating Small Cracking Unit	1-9	128
The Texas Company Expanding Cracking at Many Refineries	1-23	126
Ziegenhain, W. T.—Simplified Cracking Unit Introduced	2-27	46
Truesdell, Paul—Suggest Storage of Cracking Stock in Areas Without Crude	3-6	122
Egloff, Dr. Gustav—Expand Cracking Plants in Rumania	3-6	172
Burrell, George A.—Applying Thermodynamics to Cracking	3-6	182
Williams, S. V.—Continuous Operation in Cracking	3-6	200
Egloff, Dr. Gustav—Cracking California Gas Oil and Fuel	3-13	48

CURTAILMENT AND PRORATION

	Date	Page
Kern, Charles E.—Wilbur Is Advised of Curtailment Troubles	1-16	144
McIntyre, James—Voluntary Curtailment in November Saved Situation	1-16	154
Stockman, L. P.—California Curtailment Program Is Threatened By Another Crisis	2-6	33

CRTAILMENT AND PRORATION (Continued)

	Date	Page
Bignell, L. G. E.—Engineers Discuss Proration Methods in Oklahoma City Pool	2-6	124
Proration Plan for Voshell, Kansas Pool	2-13	146
Barrows, L. E.—Operations Under Proration in Texas	4-10	84
Bradford Producers Vote for Curtailment of Crude Production	5-15	72
Stockman, L. P.—California Operators Told They Must Sign or Curtailment Ends	5-15	143
Stockman, L. P.—Curtailment or New Cut in California	5-22	48
Bredberg, L. E.—Howard-Glasscock Proration Rules Revised by Engineering Committee	6-5	372
New Mexico Opposes Proration Until Field Makes 100,000 Bbls.	6-19	77
Bredberg, L. E.—Proration Plan for Penn Pool Approved by Operators in Field	6-26	31
Bradford-Allegany Curtailment May Be Greater This Month	6-26	110
Oklahoma Producers Agree to Continuance of Curtailment	6-26	147
Williams, Neil—Humble Rescinds Recent Order Regarding North Texas Buying	6-26	149
Potential Working Production of Crude 4,730,000 Bbls. a Day	6-26	150

For AJAX IDEAL ROLLER BEARING engine we now provide the new— BADGETT SPECIAL STEAM LUBRICATOR

SAVES SIX WAYS!

1. TIME
2. TROUBLE
3. SHUT-DOWNS
4. DELAYS
5. ENGINE WEAR
6. and MONEY

The Badgett Steam Lubricator is a positive and regular feed. This model is made and designed especially for the Ajax Ideal Roller Bearing Engine.

Order Badgett Steam Lubricator Equipment now and end all of your lubrication troubles. Good lubrication, that means money to you, the life of your machinery, the time of your workmen. Badgett special steam lubricators eliminate packing piston rods on engines and pumps. Here are some present users of Badgett Special Steam Lubricators.

Southern Drilling Co., Oklahoma City
John Mabee, Tulsa
Loffland Bros., Tulsa
J. Henry, Duncan, Okla.
Summit Drilling Co., Tulsa
G. J. Beard, Duncan, Okla.
Hubbard & Wofford, Tulsa
Herman Wagener, Oklahoma City
Byers Drilling Co., Oklahoma City
A & B Drilling Co., Oklahoma City
Capitol Drilling Co., Oklahoma City
Prince & Prince, Electra, Texas
Clark & Cowden, Duncan, Okla.
Independent Oil Co., Oklahoma City
G. E. Gilberth, Oklahoma City
Golden & Cochran, Wink, Texas
Haynes Drilling Co., Wink, Texas
Murphy & Graham, Seminole, Okla.
Steinberg & Yerkee, Seminole, Okla.
Fain-McGaha, Wichita Falls, Texas
Alleson & Clevinger, Seminole, Okla.
Winkler & McQueen, Duncan, Okla.
Reynold Drilling Co., Seminole, Okla.
Manahan Drilling Co., Seminole, Okla.
Herndon Drilling Co., Seminole, Okla.
Hartman & Hamilton, Seminole, Okla.

You are not obligating yourself when you write for details.

Sold through leading supply houses in the Mid-West and through the National Supply Co. in the state of California.

BADGETT STEAM LUBRICATOR COMPANY

CHICKASHA, OKLAHOMA

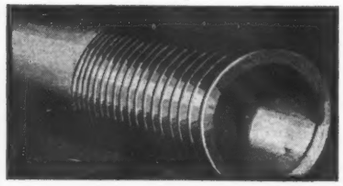
GILBERT & BARKER
Pipe Sealing Compound
FOR GASOLINE AND OIL PIPING
DIRECTIONS
Be sure threads are perfect and wiped clean. Apply compound to male threads only and make joint up tight. If compound becomes too thick it may be thinned by adding a little shellac. Use compound only for gasoline and oil piping, never on water steam or similar piping.
GILBERT & BARKER MFG. CO.
Springfield, Massachusetts, U.S.A.

Easily applied

..... it makes pipe joints tight .....

It takes only a few seconds to apply Gilbert & Barker Pipe Sealing Compound to all joints in all couplings, tees and elbows when installing gasoline oil handling equipment. But the protection it affords is as permanent as the line itself. Gas and oil cannot leak past joints sealed the G & B way. No chance for seepage. No stock losses. No expensive overhauling at some future date. Absolute protection for years to come.

Gilbert & Barker Pipe Sealing Compound comes in cans of three sizes; ⅛ pint for 15c, a handy size for the tool kit; pint for 75c, a good size for general shop use, and quart for $1.45, the size to keep on hand for supply.



Fill the male threads *only* with G & B Pipe Sealing Compound, after all threads have been thoroughly cleaned. No time wasted but you give non-crumbling, leak-proof joints to the entire line.

GILBERT AND BARKER MANUFACTURING COMPANY
PUMPS AND TANKS FOR THE OIL TRADE
SPRINGFIELD, MASS.

Visible Gasoline Pumps, mechanical measure or sight measure, hand or air operated, equipped with the famous NULTRA *bowls. Also piston type pumps with visible discharge. Pump and tank outfits for motor oils, including the popular "NARRO-LUBE" type. Special pipe sealing compound for gasoline and oil pump and tank installations.*

Are well vacuums bothering you?

THERE is nothing much more aggravating than a well vacuum that doesn't stay put.

But if you're having trouble there is a simple and effective remedy. Davis Casinghead Gas Regulators maintain the desired vacuum automatically. There is hardly an active natural gasoline manufacturer who is not using them.

Davis Regulators insure economical and satisfactory performance because they are

—simple in design
—accurate and sensitive
—protected against the elements
—easy to install and maintain
—upkeep expense negligible.

Give us your location and we'll tell you where you can see them in operation. Or we'll be glad to send you illustrated catalog on request.

WILDCAT OPERATIONS IN OKLAHOMA

(Continued from Page 50)

GARVIN COUNTY

McMinn et al's No. 1 Carson, NE NW Sec. 5-3-4w ..... Drlg. 1,840 ft.
Nelson et al's No. 1 Strickland, NE NW Sec. 10-4-3w .... Shut down 2,880 ft

GREER COUNTY

I. T. I. O. et al's No. 1 fee, C SW NE Sec. 17-6-24w ..... Drlg. 2,410 ft.

HARMON COUNTY

Harmon-Tex Oil Co.'s No. 1 Hoadley, NE cor. Sec. 17-4-24w ..... Drlg. 2,330 ft.
S. M. Stauffer's No. 1 Castleman, SW NE Sec. 8-4-26w.. Shut down 625 ft.

HARPER COUNTY

Empire's No. 1 Bruce, C NE SW Sec. 12-25-20w ..... Fishing 5,570 ft.
Sinclair Oil & Gas Co.'s No. 1 Howell, C SW SW Sec. 14-26-24w ..... 7,000,000 ft. gas; fishing 5,330-40 ft.; spraying oil.

HASKELL COUNTY

I. T. I. O.'s No. 1 Blake, SW NW Sec. 3-10-21 ..... Location.
Mid-Western's No. 1 Polster, C NE SE Sec. 33-10-22 .... Drlg. 3,265 ft.
Holden's No. 1 Phillip, SE cor. Sec. 3-9-18e ..... Shut down 1,860 ft.
Marion Oil's No. 1 Sanders, NW NE NW Sec. 10-9-18e .... Shut down 2,387 ft.
Sanboise Gas' No. 1 Unknown, SW NW SE Sec. 32-9-21e.. Shut down 2,100 ft.

HUGHES COUNTY

Wright et al's No. 1 Ott, SE SW Sec. 15-5-11 ..... Shut down 1,645 ft.
Canady et al's No. 1 Kanard, NW SW Sec. 29-9-12 ..... 1,000,000 ft. gas 2,284 ft.; drlg. 4,500 ft.
Irwin et al's No. 1 Jones, SE NW Sec. 30-5-10 ..... Drlg. 4,270 ft.

KAY COUNTY

Boucher Oil Co.'s No. 1 Jefferson, NE SW Sec. 32-26-1w ..... Rig.
Alco Royalty Co.'s No. 1 Wolf, SE SW SE Sec. 34-26-2w.. Drlg. 4,420 ft.; 5,000,000 ft. gas.
Blankinship Petroleum Co.'s No. 1 Hansen, SW NW SW Sec. 17-27-2 ..... Sand 3,590-97 ft.; swabbed 34 bbls. after 40-qt. shot.

KINGFISHER COUNTY

Prairie and Slick's No. 1 Wright, C NW SW Sec. 23-15-5w ..... Drlg. 2,630 ft.
Galt Brown's No. 1 Wolf, NW SE Sec. 6-16-7w ..... Cleaning out 6,915 ft.

KIOWA COUNTY

Riley et al's No. 1 Grebb, SW NE Sec. 6-7-16w ..... Drlg. 50 ft.

LEFLORE COUNTY

Red Bank Oil Co.'s No. 1 fee, SE SW NW Sec. 23-9-24 .. Drlg. 6,190 ft.

LATTIMER COUNTY

Limestone Oil & Gas Co.'s No. 1 Murray, NE cor. Sec. 25-5-18 ..... Shut down 1,450 ft.

LINCOLN COUNTY

J. J. Deaner et al's No. 1 Knox, NE NW Sec. 28-17-2 .... Drlg. 4,213 ft.
Atlantic Oil Prod. Co.'s No. 1 Parker, SE NW Sec. 5-14-6 ..... Drlg. 3,150 ft.
Magnolia Pet. Co.'s No. 1 Winship, NE SW Sec. 2-13-4 .. Drlg. 4,735 ft.

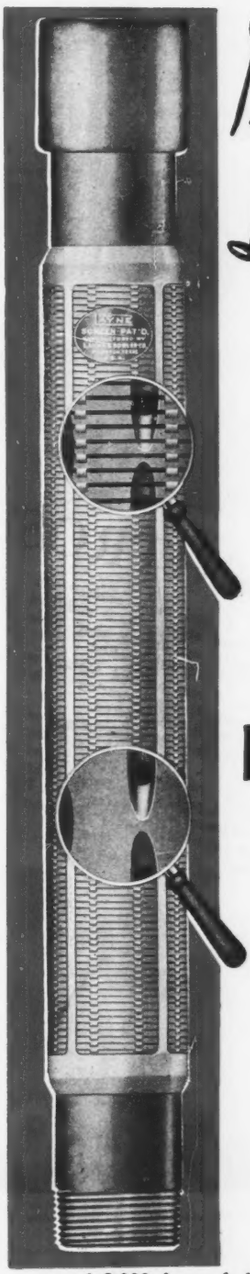
LOGAN COUNTY

Slick & Ramsey's No. 1 Jones, SE NW Sec. 24-17-2w .... Drlg. 2,800 ft.
Prairie and Slick's No. 1 Morgan, NW NE Sec. 33-16-1w ..... Fishing 5,351 ft.
Eason Oil Co.'s No. 1 Young, C SW NE SW Sec. 34-17-4w. Drlg. 3,165 ft.

McINTOSH COUNTY

Patterson et al's No. 1 Smith, SW cor. NW SE Sec. 32-9-16 ..... Shot 240 qts. 5,446-5,559 ft.; shot went off up hole; fishing.

A MAN made screening HIS Life Study



THE LAYNE MILLED GROOVE Screen RESULTED

M. E. Layne made screening his life study, and dating farther than a century ago he was identified with the business of solving screening problems.

Through ingenuity and inherent knowledge of oil production conditions—and after more than a quarter century's development — the "greater production" *Layne Milled Groove Screen* was produced.

And, today, this exclusive invention is used by leading oil companies abroad and in this country. Upon its inception is acceptance was sensational.

The *Layne Milled Groove Screen* increases production from 33-1/3% to 100%, has the ability to safely stand 8,000 feet of drill pipe, avoid sand cutting, and does not clog with mud or sand.

Install the *Layne Milled Groove Screen* instead of wishing you had.

Write, wire or phone for quick service, prices, or catalogue.
